

# instaquim®

Non-foaming degreasing detergent for automatic cleaning.

## Clor Df

### English

It is a chlorinated alkaline degreasing detergent, specially designed for the cleaning and hygiene of recirculating or automatic cleaning installations. This non-foaming product is formulated with a combination of highly effective ingredients that guarantee the removal of grease, proteins and encrusted dirt from all types of surfaces.

The formula has a high concentration of chlorinated bleaching agents, which gives it exceptional whitening and disinfecting power. In addition, its composition contains phosphonates, polycarboxylates and sodium hydroxide, which help dissolve dirt and maintain the right pH for effective cleaning.

This product is indicated for the cleaning and hygiene of facilities in the food industry, such as kitchens, bakeries, slaughterhouses, cutting rooms, among others. It can also be used in other sectors that require deep cleaning and disinfection, such as the chemical, pharmaceutical and cosmetics industries.

The recommended dosage for its use is between 5 and 10 grams per litre of water, at a temperature between 40 and 60 degrees Celsius, for a period of 5 to 10 minutes. Then, rinse with plenty of water to remove any residue of the product.

The product is available in 25 kg and 1200 kg packages, in order to adapt to the needs of any company or industry.

#### Dosage and use instructions:

It is used at a dose between 5-10 g/l for 5-10 minutes at a temperature of 40-60°C. Rinse with plenty of water.

#### Technical data:

Appearance: Yellow liquid.

pH (1%): 12.2 +/- 0.5

Density (20°C): 1.195 +/- 0.015 g/ml

#### Main components:

Contains phosphonates < 5 %, chlorinated bleaching agents < 5 %, polycarboxylates < 5 %. Sodium hydroxide.

### Español

Detergente desengrasante alcalino clorado, higienizante. Producto no espumante, indicado para la limpieza e higiene de instalaciones por recirculación o limpiezas automáticas.

#### Dosis y forma de empleo:

Se utiliza a una dosis entre 5 y 10 g/l, durante 5 - 10 minutos, a una temperatura de 40 - 60°C. Aclarar con abundante agua.

#### Datos técnicos:

Aspecto: Líquido amarillo.

pH (1%): 12.2 +/- 0.5

Densidad (20°C): 1.195 +/- 0.015 g/ml

#### Componentes principales:

Contiene fosfonatos < 5 %, blanqueantes clorados < 5 %, policarboxilatos < 5 %. Hidróxido de sodio.

#### Presentación:

25 kg, 1200 kg.

#### Precauciones de utilización o manipulación:

NO INGERIR

H290 Puede ser corrosivo para los metales.

H314 Provoca quemaduras graves en la piel y lesiones oculares graves.

H410 Muy tóxico para los organismos acuáticos, con efectos nocivos duraderos.

P102 Mantener fuera del alcance de los niños.

P280F Llevar guantes, prendas y gafas de protección. En caso de ventilación insuficiente, llevar equipo de protección respiratoria.

P363 Lavar las prendas contaminadas antes de volver a usarlas.

P301+P330+P331 EN CASO DE INGESTIÓN: Enjuagarse la boca. NO provocar el vómito.
